

The Atlas Copco logo is positioned in the top right corner of the image. It consists of the brand name "Atlas Copco" in a white, italicized serif font, centered between two horizontal white bars. The entire logo is set against a teal rectangular background.

Atlas Copco

A worker wearing a white hard hat and a high-visibility yellow safety vest is operating a yellow Atlas Copco compressor. The compressor is connected to a large, grey and yellow dust collector labeled "DCP 10" and "Atlas Copco". The worker is using a yellow hose to connect the compressor to the dust collector. The scene is set outdoors on a concrete surface, with a large metal building in the background under a clear blue sky.

Dust off breakdowns and bring in more efficiency and profits with Atlas Copco DCP 10, dust collector

Breaking is a dirty job but with a dust collector, the operator is protected against the most harmful dust. Atlas Copco’s pneumatic dust collectors use vacuum technology to efficiently remove dust directly at the source and keep the silica dust level on your construction site below the permissible exposure limit. They work indoors as well as outdoors. They don’t require power, only a reliable source of compressed air.

Simple to set-up, easy to use

Every dust collector package is a complete kit that you'll have up and running in minutes. Trolley version is available as an option.

No power required

A dust collector requires no power source, only a steady supply of compressed air. Its semi-automatic filter cleaning mechanism makes your job even easier.

Efficient operation

A DCP dust collector consumes no more than 12 liters of air per second. Its recyclable collection bags will last for an 8-hour shift.

- Features:**
- ▶ Simple set-up and operation
 - ▶ Recyclable collection bags
 - ▶ Semi-automatic filter cleaning mechanism
 - ▶ Will last an 8-hour shift
 - ▶ Trolley version available
 - ▶ Air consumption 25 cfm
 - ▶ Washable high quality filter
 - ▶ Low maintenance

DCP 10 Kit - (Rock Drill Kit)

Standard scope of supply:

- DCP 10 vacuum suction unit
- Silencers
- Dust collection bag x 3
- Drilling suction hood x 1
- Suction hose – 7m (21 ft)
- 4 way connector with compressor inlet

Technical Data

	Units	DCP 10
Weight incl tripod stand	kg	25
Air consumption at 6 bar	l/s	11-12
Vacuum suction	mm of H2O	1340
Air inlet connection	mm	12.7
Suction hose	mm	38
Filter surface area	m ²	2
Collection sack, flat dimensions	mm	560 x 700
Diameter of housing unit	mm	365
Height of housing unit	mm	760
Height above ground	mm	1310
